PROFESSIONAL SUMMARY

Computer Engineering student specializing in full-stack web development. Skilled in developing responsive applications using the MERN stack and proficient in Python for backend development and automation. Eager to apply technical knowledge, enhance practical experience, and contribute to innovative projects through real world technologies.

EDUCATION

LJ INSTITUTE OF ENGINEERING AND TECHNOLOGY

2023 - 2027

Bachelor of Engineering

Ahmedabad Gujarat

SPI : 8.0/10

ST XAVIERS SCHOOL

2021 - 2022

Hsc

Bhuj Gujarat

Result : 76%:

SKILL

- Frontend: HTML, CSS, Bootstrap, React, JavaScript
- Backend: Node.js, Express.js, MongoDB
- Programming Languages: Python, Java (OOPs)
- Other Skills: AI/ML (TensorFlow, Scikit-learn)

PROJECTS

Career-Nest

- Built a modern job recommendation and placement portal with Django as backend framework to connect candidates with the right opportunities
- Improved hiring efficiency with recruiter dashboards for posting jobs and managing applicants
- Delivered an engaging experience through real-time updates and a responsive, user friendly interface

Job-Sphere

- Developed a modern MERN-based application using React (frontend) and MongoDB (database).
- Integrated RESTful APIs for dynamic data exchange and real-time job updates.
- Designed a scalable recruiter dashboard for managing postings and applicants.
- Focused on client-side rendering with a responsive, interactive UI for enhanced user experience.

Watch-website

- Developed a responsive e-commerce website for watches using Bootstrap, CSS, and JavaScript.
- Designed an intuitive user interface with product showcase and smooth navigation.
- Implemented interactive features such as sliders, hover effects, and dynamic elements.
- Ensured mobile-first design and cross-browser compatibility for seamless user experience.
